NET REVENUE · DEC 2010 TO NOV 2011

38%

of the year's net revenue came in three months: Sep, Oct and Nov.

Source: Online Retail dataset (UCI, public), Dec 2010 to Nov 2011. Analysis by .describe(. Net £9.33M over 12 full months.

.describe(

NET REVENUE BY MONTH

The year turned in September; November alone was 15% of it.

01 Apr was the low point: £0.48M, a third of November.

02 From September the run rate stepped up to £1.01M a month and kept rising.

n = 497,814 sale lines. Source: Online Retail dataset (UCI, public), Dec 2010 to Nov 2011. Analysis by .describe(.

METHOD

Four checks stand between the export and a number you can decide with.

01 Duplicates are rows identical in every field, kept once.

02 Cancellations are the invoices whose number starts with C.

03 Postage, bank charges and manual adjustments are not products.

.describe(

CUSTOMERS

customers brought in half of the revenue.

Out of 4,284 with a customer ID. 15% of sales value has no ID at all.
