

MONTHLY REVIEW

8 numbers every online store should check monthly.

Not 40. Not a dashboard nobody opens. Eight.

SWIPE →

01

Net revenue

WHAT IT IS

Sales minus returns, cancellations and discounts.

WHY IT MATTERS

The only revenue number worth reporting.

02

Gross profit margin

WHAT IT IS

Net revenue minus product cost, as a % of net revenue.

WHY IT MATTERS

Sales can grow while profit shrinks.

03

Number of orders

WHAT IT IS

Completed orders, not cart sessions.

WHY IT MATTERS

Tells you if growth is more buyers or bigger baskets.

04

Average order value

WHAT IT IS

Net revenue divided by orders.

WHY IT MATTERS

Bundles and free-shipping thresholds move this.

05

Return and cancellation rate

WHAT IT IS

Returned or cancelled value as a % of sales.

WHY IT MATTERS

A rising rate eats margin quietly.

5 / 8

06

Returning-customer revenue

WHAT IT IS

Share of revenue from people who bought before.

WHY IT MATTERS

Cheaper to grow than new customers.

07

Top-10 customer share

WHAT IT IS

Share of revenue from your 10 biggest customers.

WHY IT MATTERS

High share means high risk if one leaves.

08

Ad spend per order

WHAT IT IS

Total ad spend divided by orders it brought in.

WHY IT MATTERS

Compare it with profit per order, not revenue.

YOUR STORE

Which one don't you track yet?

We turn your store's order export into these numbers, cleaned and checked.
